25X1X

1. A total of 19 trains of empty gondola cars and 32 trains of empty boxcars headed west through the Kuestrin/Kietz (O 53/V 66) border crossing point during the period from 22 September to 14 October 1950. *

25X1A * Comment. According to the daily operations reports of the Berlin regional railroad headquarters covering the period from early July to early September 1950, the number of westbound trains passing through Kuestrin/Kietz daily averaged three to four. Most of these trains were empty. Present report indicates that the number of empty trains returned from the U.S.S.R. to Germany has decreased. For shuttle train operation through Kuestrin/Kietz, see
